

Content Management Working Group

Reinvented in March 2020

Main goal: to ensure that the user community has access to the most complete and current reflection of the content made available by the publisher partners.

Main Objectives

- Facilitate accessibility of content provided by publisher partners
- Ensure discovery and seamless linking to full text
- Integration of semantic tools and methodologies to enhance visibility of content

Target Audience

- **users** - ensure the best experience for the using communities
- **publishers** - ensure accurate and positive reflection of the availability of their content

The Team

- Kimberly Parker (WHO)
- Margaret Inkoom (WHO)
- Martin Mogga (WHO)
